

To the Parents of Boys...

If you are planning to have your son circumcised, please be aware that the procedure will be done in our office sometime after his first visit. Some insurance companies have made this an elective procedure and are choosing not to pay for this service; ***therefore payment will be due at the time of service.*** We will continue to submit this to your insurance, and if they pay for the circumcision, we will apply it towards your account first before a refund will be applicable.

The cost for the visit and procedure is **\$300.00**. We will accept cash, cashier's checks or MasterCard or Visa payment. ***Personal checks are not acceptable forms of payment for this visit.***

Also for comfort reasons, please bring a pacifier and/or bottle with you to this appointment.

Please Check in twenty minutes early

Thank you,

Lakeside Pediatrics
